

First, I wish to say how disturbed I am in that I feel that we are losing our democracy because we are GIVING media control to large organizations. I believe we people should own the airwaves. I am angry about the Sinclair Broadcasting airwaves giveaways.

I am totally in favor of local low power-fm so that we can get local issues really thoroughly discussed and empower more people to speak.

Please treat your responsibility as a SACRED job. If FCC follows a political agenda, we have lost our democracy. We may have already.
Thank you,

Jean Jackman
